

PDG Mobility Bentley LT

The Bentley LT combines the benefits of 20° tilt with a high degree of mobility due to its lightweight aluminium frame.

The Bentley LT's front pivot design maintains the front seat-to-floor height and can allow users to keep their feet on the ground even when the chair is fully tilted – a perfect solution for foot propelling or standing transfers.

Exclusive features

- Ability to hand and foot propel in a tilted position with no knee-rise
- User tilt activation for additional independence
- Short, lightweight wheelbase for good manoeuvrability
- Adjustable rear axle position for centre of gravity changes

Available options (see order form)

- Transit tie downs WC19 & ISO7176-19
- 30° manual dynamic recline
- Power tilt
- Easy-Out front rigging
- Drum brakes
