LapStacker®

Retractable
carry strap for
wheelchairs

XD
POWER For select power wheelchairs.

zip·clip·go!

Carrying things from a wheelchair can be frustrating, limiting and risky.

Fumbling to secure a laptop, groceries or outdoor gear on your lap while using your wheelchair is not only embarrassing and slows you down, but costly if they're damaged when they hit the ground.

The LapStacker gives you an extra set of hands so you can move with confidence, independence and freedom.

Easy to use

Conserve your precious energy - make carrying things easy.

01

Pull the straps over the objects on your lap

02

Clip the buckles together

03

Roll with confidence

Using the LapStacker allows me to do some practical tasks, like carrying a picnic basket, so that my wife or carer doesn't have to. It also shows my kids that Dad can do stuff, which makes me feel great! This may seem like a small thing, but it all adds up.

Johnny (C4 Tetraplegia)

The finger-friendly loops and magnetic buckles make clipping the straps together easy, even if you have reduced hand function.

The straps sit neatly by your side, ready when needed.

Hi

Me and my good friend invented the LapStacker so I could easily carry things on my lap without dropping them! It's been a game changer and I hope you love it too.

Mike
